

ZOHA BINTE ABDUL WAHID

Frontend Developer

Dubai, UAE • +971 50 360 7057 • zohabawahid@gmail.com • [linkedin.com/in/zuhabaw](https://www.linkedin.com/in/zuhabaw)

SUMMARY

Frontend-focused developer with 3 years of experience building responsive, accessible web applications using React.js, Next.js, and TypeScript. Skilled at translating UX/UI designs into reusable components and integrating frontends with REST APIs and content management systems. Strong focus on clean, maintainable code, performance, and cross-browser compatibility, with proven collaboration through code reviews, Agile delivery, and mentoring.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux / Redux Toolkit, React Query, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **UI & Styling:** TailwindCSS, Material UI, Mantine UI, Bootstrap, Responsive Design, Cross-Browser Compatibility, Web Accessibility (semantic HTML)
- **Backend & APIs:** Node.js, Express.js, REST APIs, GraphQL, CMS (Strapi and WordPress), Firebase Functions
- **Databases & Tools:** MongoDB, MySQL, Git, Bitbucket, Jira, Trello, Postman, Agile / Scrum, CI/CD, SEO, Performance Tuning, Cloud Deployment

PROFESSIONAL EXPERIENCE

Zabeel International Institute — Dubai, UAE

09/2025 – Present

Full Stack Web Trainer

- Delivering comprehensive training in HTML, CSS, JavaScript, Next.js, React.js, Node.js, Python, Django, and Express.js.
- Guiding students through real-world project development, from UI design to backend integration.
- Created structured lesson plans covering REST APIs, database management, and cloud deployment.
- Mentoring students on debugging, code optimization, and industry-standard best practices.

Prolance Services — India

06/2022 – 09/2023

Front-End Developer

- Developed and maintained responsive web interfaces using React.js, TypeScript, Material UI, and Mantine UI.
- Created reusable and modular components, reducing frontend redundancy.
- Integrated REST APIs via React Query and Redux Toolkit to deliver real-time dynamic dashboards.
- Enhanced app navigation and forms for smoother user flow, cutting bounce rate.
- Contributed to the development of WordPress websites, increasing site speed.
- Played a key role in WordPress security, enhancing site protection and reducing vulnerabilities.
- Conducted A/B tests on sites, improving conversion rates.
- Partnered with backend engineers to ensure consistent API contracts and error-free integrations.
- Contributed to CI/CD pipelines using Git and Bitbucket; participated in Agile sprints and managed tasks in Jira / Trello.

ReformX Technologies — India

01/2022 – 05/2022

Front-End Developer

- Developed internal tools and dashboards using React.js and Firebase to streamline company workflows.
- Built reusable UI components and web applications using modern, component-based frontend patterns.
- Mentored junior developers on component architecture and frontend–backend integration.

PROJECTS

Off-Road Adda

- Built a production client platform with a React.js frontend and Strapi CMS, using a decoupled, API-driven architecture that separates content management from the frontend.
- Integrated the WhatsApp Business API for instant customer communication, improving enquiry response time.
- Built SEO-optimized, mobile-responsive layouts with TailwindCSS; deployed on Firebase Hosting and Strapi Cloud.

NasViewDeveloper

- Designed and built a single-page luxury real estate site in React 19, Vite, and Tailwind CSS with Framer Motion animations - cinematic hero, scroll-reveal sections, and glassmorphism project cards.
- Built a backend-free lead-generation flow that auto-generates a pre-filled WhatsApp message from the contact form, with click-to-call and email actions; fully responsive, SEO-optimized, and deployed on Replit.

EDUCATION

Bachelor of Computer Applications 2018 – 2021

JSS College for Women, Mysore, India — GPA: 8.4 / 10
